SilverScript Employer PDP sponsored by State of Maryland (SilverScript)

**2024 Formulary
(List of Covered Drugs)**

**PLEASE READ: THIS DOCUMENT CONTAINS INFORMATION
ABOUT THE DRUGS WE COVER IN THIS PLAN**

This formulary was updated on 08/17/2023. For more recent information or other questions, please contact Customer Care at 1-844-460-8767, 24 hours a day, 7 days a week. TTY users should call 711.

Formulary ID Number: 24194

Note to existing members: This formulary has changed since last year. Please review this document to make sure that it still contains the drugs you take.

When this drug list (formulary) refers to “we,” “us,” or “our,” it means SilverScript[®] Insurance Company. When it refers to “plan” or “our plan,” it means SilverScript.

This document includes a list of the drugs (formulary) for our plan, which is current as of January 1, 2024. For an updated formulary, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You must generally use network pharmacies to use your prescription drug benefit. Benefits, formulary, pharmacy network, and/or copayments/coinsurance may change on January 1, 2025, and from time to time during the year.

What is the SilverScript Formulary?

A formulary is a list of covered drugs selected by SilverScript in consultation with a team of health care providers, which represents the prescription therapies believed to be a necessary part of a quality treatment program. SilverScript will generally cover the drugs listed in our formulary as long as the drug is medically necessary, the prescription is filled at a SilverScript network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your *Evidence of Coverage*.

Please note: State of Maryland provides additional coverage that may cover prescription drugs not included in your Medicare Part D benefit. For more information about your share of the cost or which prescription drugs may or may not be covered, please call Customer Care.

The additional coverage provided by State of Maryland covers certain prescription drugs not covered under Medicare Part D. Payments made for these prescription drugs will not count toward your initial coverage limit or total out-of-pocket costs. These prescription drugs are not subject to the appeals and exceptions process.

Please contact Customer Care for any questions regarding your additional benefit.

Can the Formulary (drug list) change?

Most changes in drug coverage happen on January 1, but SilverScript may add or remove drugs on the Drug List during the year, move them to different cost-sharing tiers, or add new restrictions. We must follow Medicare rules in making these changes.

Changes that can affect you this year: In the below cases, you will be affected by coverage changes during the year:

New generic drugs. We may immediately remove a brand-name drug on our Drug List if we are replacing it with a new generic drug that will appear on the same or lower cost-sharing tier and with the same or fewer restrictions. Also, when adding the new generic drug, we may decide to keep the brand-name drug on our Drug List, but immediately move it to a different cost-sharing tier or add new restrictions. If you are currently taking that brand-name drug, we may not tell you in advance before we make that change, but we will later provide you with information about the specific change(s) we have made.

- If we make such a change, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the SilverScript Formulary?”

Drugs removed from the market. If the Food and Drug Administration deems a drug on our formulary to be unsafe or the drug’s manufacturer removes the drug from the market, we may immediately remove the drug from our formulary and provide notice to members who take the drug.

Other changes. We may make other changes that affect members currently taking a drug. For instance, we may add a generic drug that is not new to market to replace a

brand-name drug currently on the formulary, or add new restrictions to the brand-name drug or move it to a different cost-sharing tier or both. Or we may make changes based on new clinical guidelines. If we remove drugs from our formulary, add quantity limits and/or prior authorization restrictions on a drug, or move a drug to a higher cost-sharing tier, we must notify affected members of the change at least 30 days before the change becomes effective or at the time the member requests a refill of the drug, at which time the member will receive a 45-day supply of the drug.

- If we make these other changes, you or your prescriber can ask us to make an exception and continue to cover the brand-name drug for you. The notice we provide you will also include information on how to request an exception, and you can find information in the section below titled “How do I request an exception to the SilverScript Formulary?”

Changes that will not affect you if you are currently taking the drug. Generally, if you are taking a drug on our 2024 formulary that was covered at the beginning of the year, we will not discontinue or reduce coverage of the drug during the 2024 coverage year except as described above. This means these drugs will remain available at the same cost-sharing and with no new restrictions for those members taking them for the remainder of the coverage year. You will not get direct notice this year about changes that do not affect you. However, on January 1 of the next year, such changes would affect you, and it is important to check the Drug List for the new benefit year for any changes to drugs.

This formulary is current as of January 1, 2024. To get updated information about the drugs covered by our plan, please contact us at the number on your member ID card. Our contact information also appears on the front and back cover pages.

If we have other types of midyear non-maintenance formulary changes unrelated to the reasons stated above (e.g., remove drugs from our formulary; add prior authorization requirements, quantity limits, and/or step therapy restrictions on a drug; or move a drug to a higher cost-sharing tier), we will notify you by mail. We will also update our formulary with the new information. The updated formulary may be obtained by calling us.

How do I use the Formulary?

There are two ways to find your drug within the formulary:

Alphabetical Listing

If you are not sure what category to look under, you should look for your drug in the Index at the back of this document. The Index provides an alphabetical list of all of the drugs included in this document. Both brand-name drugs and generic drugs are listed in the Index. Next to your drug, you will see the page number where you can find coverage information. Turn to the page listed in the Index and find the name of your drug in the first column of the list.

Medical Condition

The formulary begins on page 1. The drugs in this formulary are grouped into categories depending on the type of medical conditions that they are used to treat. For example, drugs used to treat a heart condition are listed under the category “Cardiovascular.” If you know what your drug is used for, look for the category name in the list that begins on page 1. Then look under the category name for your drug.

What are generic drugs?

Our plan covers both brand-name drugs and generic drugs. A generic drug is approved by the FDA as having the same active ingredient as the brand-name drug. Generally, generic drugs cost less than brand-name drugs.

Are there any restrictions on my coverage?

Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include:

Prior Authorization (PA): Some drugs require you or your physician to get prior authorization. You must get an approval from us before you can get your prescription filled. If you don’t get approval, we may not cover the drug.

Quantity Limits (QL): For certain drugs, there is a quantity limit in the amount of the drug that we will cover. For example, our plan provides up to 30 tablets per 30-day prescription for *atorvastatin*. This may be in addition to a standard one-month or three-month supply.

There may be additional drugs that are not available at mail and not marked NM, including some hepatitis B medications, post-transplant medications, and oral medications used to treat HIV.

You can find out if your drug has any additional requirements or limits by looking in the formulary that begins on page 1. You may ask us to send you a copy. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

You can ask SilverScript to make an exception to these restrictions or limits or for a list of other, similar drugs that may treat your health condition. See the section, “How do I request an exception to the SilverScript Formulary?” for information about how to request an exception.

What if my drug is not on the Formulary?

If your drug is not included in this formulary (list of covered drugs), you should first contact Customer Care and ask if your drug is covered.

If you learn that our plan does not cover your drug, you have two options:

- You can ask Customer Care for a list of similar drugs that are covered by our plan. When you receive the list, show it to your doctor and ask them to prescribe a similar drug that is covered by our plan.
- You can ask us to make an exception and cover your drug. See below for information about how to request an exception.

State of Maryland offers additional coverage on some prescription drugs not normally covered under a Medicare Part D prescription drug plan benefit. Payments made for these drugs will not count toward your initial coverage limit or total out-of-pocket costs. Please contact Customer Care for any questions regarding your additional benefit.

How do I request an exception to the SilverScript Formulary?

You can ask us to make an exception to our coverage rules. There are several types of exceptions that you can ask us to make:

- You can ask us to cover a drug even if it is not on our formulary. If approved, this drug will be covered at a pre-determined cost-sharing level and you would not be able to ask us to provide the drug at a lower cost-sharing level.
- You can ask us to cover a formulary drug at a lower cost-sharing tier. If approved, this would lower the amount you must pay for your drug.
- You can ask us to waive coverage restrictions or limits on your drug. For example, for certain drugs our plan limits the amount of the drug that we will cover. If your drug has a quantity limit, you can ask us to waive the limit and cover a greater amount.

Generally, we will only approve your request for an exception if the alternative drug is included on the plan's formulary or if the lower cost-sharing drug or additional utilization restrictions would not be as effective in treating your condition and/or would cause you to have adverse medical effects.

You should contact us to ask for an initial coverage decision for a formulary, tiering, or utilization restriction exception. **When you request a formulary, tiering, or utilization restriction exception, you should submit a statement from your prescriber or physician supporting your request.** Generally, we must make our decision within 72 hours of getting your prescriber's supporting statement. You can request an expedited (fast) exception if you or your doctor believe that your health could be seriously harmed by waiting up to 72 hours for a decision. If your request to expedite is granted, we must give you a decision no later than 24 hours after we get a supporting statement from your doctor or other prescriber.

What do I do before I can talk to my doctor about changing my drugs or requesting an exception?

As a new or continuing member in our plan, you may be taking drugs that are not on our formulary. Or you may be taking a drug that is on our formulary but your ability to get it is limited. For example, you may need a prior authorization from us before you can fill your prescription. You should talk to your doctor to decide if you should switch to an appropriate drug that we cover or request a formulary exception so that we will cover the drug you take. While you talk to your doctor to determine the right course of action for you, we may cover your drug in certain cases during the first 90 days you are a member of our plan.

For each of your drugs that is not on our formulary or if your ability to get your drugs is limited, we will cover a temporary 90-day supply. If your prescription is written for fewer than 90 days, we'll allow refills to provide up to a maximum 90-day supply of medication. After your first 90-day supply, we will not pay for these drugs, even if you have been a member of the plan less than 90 days.

If you are a resident of a long-term care facility and you need a drug that is not on our formulary or if your ability to get your drugs is limited, but you are past the first 90 days of membership in our plan, we will cover a 31-day emergency supply of that drug while you pursue a formulary exception.

If you experience a change in your level of care, such as a move from a home to a long-term care setting, and need a drug that is not on our formulary (or if your ability to get your drugs is limited), we may cover a one-time temporary supply from a network pharmacy for up to 31 days, unless you have a prescription for fewer days. You should use the plan’s exception process if you wish to have continued coverage of the drug after the temporary supply is finished.

Initial Coverage Stage Copayment/Coinsurance Levels

The plan has three Cost-Sharing Tiers

Every drug on the plan’s drug list is in one of three cost-sharing tiers. In general, the higher the cost-sharing tier number, the higher your cost for the drug.

- Cost-Sharing Tier 1: Generic**
- Cost-Sharing Tier 2: Preferred Brand**
- Cost-Sharing Tier 3: Non-Preferred Brand**

To find out which cost-sharing tier your drug is in, look it up in the plan’s drug list that begins on page 1.

Your share of the cost when you get a *one-month* supply of a covered Part D prescription drug before your Individual & Family maximum out-of-pocket is met:

	Network Retail Pharmacy (Up to a 45-day supply)	Mail-Order Pharmacy (Up to a 45-day supply)	Long-Term Care (LTC) Pharmacy (Up to a 31-day supply)
Tier 1: Generic	\$10.00	\$10.00	\$10.00
Tier 2: Preferred Brand	\$25.00	\$25.00	\$25.00
Tier 3: Non-Preferred Brand	\$40.00	\$40.00	\$40.00

You won’t pay more than \$35 for a one-month supply of each covered insulin product regardless of the cost-sharing tier.

Costs shown in the table above reflect the additional coverage that may be provided by State of Maryland. Drugs that are part of your standard Medicare plan, but do not have additional coverage from State of Maryland would be covered under the 2024 Medicare Part D Defined Standard Benefit. Please visit <https://q1medicare.com/PartD-The-2024-Medicare-Part-D-Outlook.php> for more information about the 2024 Medicare Part D Defined Standard Benefit drug costs.

For more information

For more detailed information about your SilverScript prescription drug coverage, please review your *Evidence of Coverage* and other plan materials.

If you have questions about our plan, please contact us. Our contact information, along with the date we last updated the formulary, appears on the front and back cover pages.

If you have general questions about Medicare Part D prescription drug coverage, please call Medicare at 1-800-MEDICARE (1-800-633-4227), 24 hours a day, 7 days a week. TTY users should call 1-877-486-2048. Or visit www.medicare.gov.

SilverScript's Formulary

The formulary that begins on page 1 provides coverage information about the drugs covered by our plan. If you have trouble finding your drug in the list, turn to the Index at the back of this book.

The first column of the chart lists the drug name. Brand-name drugs are capitalized (e.g., SYNTHROID) and generic drugs are listed in lower-case italics (e.g., *levothyroxine*).

The information in the Requirements/Limits column tells you if SilverScript has any special requirements for coverage of your drug.

- PA Prior Authorization
- QL Drug has Quantity Limits
- NM Not available at our mail-order pharmacies.
- NDS Non-extended day supply. Not available for an extended (long-term) supply.
- LA Limited Access. This prescription may be available only at certain pharmacies. For more information, consult your *Pharmacy Directory* or call Customer Care at 1-844-460-8767, 24 hours a day, 7 days a week. TTY users should call 711.
- B/D This drug may be covered under Medicare Part B or D depending upon the circumstances. Information may need to be submitted describing the use and setting of the drug to make the determination.
- GC We provide additional coverage of this prescription drug in the Coverage Gap. Please refer to our *Evidence of Coverage* for more information about this coverage.
