COMMENTARY

The Department of Budget and Management annually updates this 19 year summary of all State-owned and non-State owned capital improvement projects and programs that are authorized by the General Assembly, except for those of the Department of Transportation.

The capital improvements listed in this document are financed by five principal types of funding:

1) Maryland Consolidated Capital Bond Loan, which the Maryland General Assembly enacts to authorize the sale of bonds to finance improvements to a specific facility owned by a local government or nonprofit organization.
2) General Funds, which are used to finance projects which are not suited by nature or law to bond funding. When State revenues suffice, General Funds are also used to increase the scope and funding of the Capital Improvement Program. Appropriations of General Funds for capital projects are included in the State Budget Bill.
3) Special Funds, which are generated by activities of certain units of State government. Projects funded from this source are identified in appropriation language in the State Budget Bill.
4) Federal Funds, which are also appropriated for specific projects in the State Budget Bill.
5) Revenue Bonds, which are issued by certain State agencies, such as State higher education institutions, the Maryland Department of the Environment, and the Maryland Stadium Authority.

Abbreviations used in this document for these fund sources are as follows:

A.F.B.A.	Academic Facilities Bonding Authority (Revenue Bonds of the University System of Maryland)
B.B.	Bond Bills, also known as Legislative Initiatives
F.F.	Federal Funds
G.F.	General Funds
M.C.C.B.L.	Maryland Consolidated Capital Bond Loan
Q.Z.A.B.	Qualified Zone Academy Bonds
R.B.	Revenue Bonds
S.F.	Special Funds

The years shown in this document are calendar years, not fiscal years.

Chapter numbers for legislation authorizing funds for the capital projects described in this document can be found in the Historical Summary if the legislation was used to fund multiple projects, and following the description of the legislation if it was used to fund a specific project.

Unless otherwise noted, projects printed in italics indicate that appropriations have been cancelled or permitted to lapse. In either situation, the State Funds were not used for the project.

First, the Department shall contract with the Maryland Environmental Service to conduct a comprehensive inflow and infiltration data study on every wastewater treatment system with an average wastewater discharge of under 12 million gallons per day. The study shall involve a statewide analysis using readily accessible existing data and shall determine whether there is an inflow and infiltration problem and, if so, determine the magnitude of the problem. Second, the Department shall contract with the Maryland Environmental Service to conduct between three and six comprehensive in-depth inflow and infiltration studies at selected wastewater treatment systems around the State that are representative of the inflow and infiltration problems around the State. Third, the Department shall contract with a qualified third party to conduct a utility rate study for each locality with a wastewater treatment system in Maryland with an average wastewater discharge of under 12 million gallons per day. This study will compare the local jurisdiction's utility rate to that necessary to financially support the jurisdiction's current wastewater treatment program, while ensuring that adequate funding is set aside by the local jurisdiction for a local capital improvement program;	17,832,000

Furthermore, the report shall advise the committees on how the Department plans to utilize therapeutic treatment homes to meet its mission of serving individuals in the least restrictive setting, including whether these homes will be used as step-down units. The report shall include how many therapeutic treatment homes would be needed based on the modified size of the SETT unit, including operating costs to serve these individuals in therapeutic homes in comparison to serving individuals in the SETT unit. The Department shall advise on its efforts to work with community providers to establish therapeutic treatment homes in the State. The budget committees shall have 45 days to review and comment following the receipt of the report. Further provided that no funds may be expended for project design until the Department of Health and Mental Hygiene provides the budget committees with a report that provides total estimated project costs for renovating an existing SETT unit, in comparison to constructing a new 32-bed facility, including estimated operating costs associated with a fully operational facility. The report shall indicate how the renovations option will address concerns related to security and lack of vocational space posed by the existing facility and how renovations to an existing SETT unit will effectively meet the needs of the forensic population. Finally, the Department shall indicate how it plans to fund and administer the expansion of community-based homes to support a consolidated SETT unit, including whether providers operating these homes will be required to meet additional regulatory standards. The budget committees shall have 45 days to review and comment, following the receipt of the report.* 0

The budget committees shall have 45 days from the receipt of the report to review and comment. Further provided that no funds may be expended until the Department submits a report to the Budget Committees that evaluates the option of renovating the currently vacant Baltimore pre-release unit for women in order to accommodate the youth-charged-as-adult population. The report should evaluate the current housing, programming, medical, recreation, and education space, and identify any necessary changes. The report should also include a preliminary cost estimate and timeline for renovation, if it is determined to be a feasible option. The report shall be submitted to the budget committees no later than July 30, 2012, and the budget committees shall have 45 days from the receipt of the report to review and comment.* 0

NOTE: The 2010 General Assembly pre-authorized $38,000,000 in the FY 2012 budget and $25,600,000 in the FY 2013 budget to construct this facility. The 2011 General Assembly reduced the FY 2012 pre-authorization from $38,000,000 to $0 since the project was not ready to proceed. The 2011 General Assembly also increased the FY 2013 pre-authorization from $25,600,000 to $41,100,000 and pre-authorized $21,700,000 in FY 2014. In addition, the 2011 General Assembly restricted the use of these funds until a new population analysis has been submitted. The 2012 General Assembly reduced the FY 13 authorization from $41,100,000 to $0 since the project was not ready to proceed due to the reevaluation of the project's scope. Further amended by Chapter 444, Acts of 2012 to reduce the authorization from $17,520,000 to $597,000 and to restrict the use of funds until a space analysis, cost estimate and schedule have been submitted to the General Assembly. Further amended by Chapter 424, Acts of 2013 to reduce the authorization from $597,000 to 0.

PUBLIC SCHOOL CONSTRUCTION PROGRAM

M.C.C.B.L. **2012** Provide funds to construct public school buildings and public school capital improvements in accordance with Sections 5-301 through 5-303 of the Education Article, provided that $25,000,000 of this appropriation shall be used to fund projects that improve the energy efficiency of schools, including improvements to HVAC systems, lighting, mechanical systems, windows and doors, and any other type of improvement that is specifically designed to improve the energy efficiency of a school building, per standards to be developed by the Interagency Committee (IAC) in collaboration with the Maryland Energy Administration. Priority will be given to projects that maximize leverage, such as projects that only fund the incremental cost of energy efficiency improvements, as opposed to the full costs of the energy project. The funds may also be used to install renewable energy systems in schools, provided that $25,000,000 of this appropriation is restricted and may not be expended until the IAC submits a report to the budget committees detailing the standards that will be used to allocate funds among projects that improve the energy efficiency of schools. The budget committees shall have 45 days from the receipt of the report to review and comment. 326,393,000

Further provided that any school construction funds allocated to an eligible project in a county that are not spent for the project may, within two years, at the county's option be:

(1) applied to another eligible project in the current fiscal year; or

(2) reverted to the contingency fund and reserved for eligible projects in the county in the next fiscal year, which shall be in addition to new funds allocated for eligible projects in the county in the next fiscal year.

Further provided that any school construction funds reserved for a county in the contingency fund that are not encumbered within two years shall become available to be allocated to an eligible project in any county.

NOTE: The projects funded by the Public School Construction Program in 2012 are listed individually by county in Part II. In accordance with HB 1391 (Chapter 144, Acts of 2012), $2,800,000 will be allocated to the Maryland School for the Blind.

Q.Z.A.B. **2012** A grant to the Interagency Committee on School Construction or the Maryland State Department of Education for the allocation to eligible school systems under the Aging School Program for the renovation, repair and capital improvements of qualified zone academies, as defined in Section 1397E(d)(4)(A) of the Internal Revenue Code, as amended, and in accordance with the Aging School Program of the Interagency Committee on School Construction, as provided under Section 5-303 of the Education Article of the Annotated Code of Maryland, and to provide equipment for use at such academies as allowed under 1397E of the Internal Revenue Code, subject to the requirement that the grantee document the provision of a required Federal matching fund. The grant shall equal the lesser of $15,324,000 or the matching fund provided. The matching fund shall comply with Section 1397E(d)(2) of the Internal Revenue Code, as amended. (Chapter 3). 15,324,000

Further provided that $25,000,000 of this appropriation is restricted and may not be expended until the IAC submits a report to the budget committees detailing the standards that will be used to allocate funds among projects that improve HVAC systems. The budget committees shall have 45 days from the receipt of the report to review and comment. 300,000,000

Further provided that any school construction funds allocated to an eligible project in a county that are not spent for the project may, within two years, at the county's option be:

(1) applied to another eligible project in the current fiscal year; or

(2) reverted to the contingency fund and reserved for eligible projects in the county in the next fiscal year, which shall be in addition to new funds allocated for eligible projects in the county in the next fiscal year. Further provided that any school construction funds reserved for a county in the contingency fund that are not encumbered within two years shall become available to be allocated to an eligible project in any county.

NOTE: The projects funded by the Public School Construction Program in 2013 are listed individually by county in Part II. In accordance with HB 1391 (Chapter 144, Acts of 2012), $5,569,000 will be allocated to the Maryland School for the Blind.
