

PUBLIC SCHOOL CONSTRUCTION PROGRAM

SUMMARY

The Public School Construction Program assists local boards of education in providing Maryland's public school students with facilities which support teaching and learning. Funds are provided for total building renovations, additions, new construction, systemic renovations, wiring schools for technology, prekindergarten facilities, science labs and movement of relocatable classrooms. The purpose of the program is to:

- Provide local tax relief;
- Relieve the subdivisions of the high costs of school construction;
- Address the considerable need to renovate and replace existing schools and construct new schools; and,
- Equalize educational facilities throughout the State.

Matching funds are provided by local governments and may vary between 50% and 90% of the cost of construction. The percentage used is based on the wealth of the subdivision.

PUBLIC SCHOOL CONSTRUCTION PROGRAM

FY 2005 - FY 2009 Capital Improvement Program State-Owned Facilities

PUBLIC SCHOOL CONSTRUCTION PROGRAM Budget Code: DE0202

Renovate Relocatable Classrooms (Statewide)

Repair, refurbish and upgrade State-owned relocatable classrooms. The State owns 212 relocatable classrooms, the majority of which were acquired prior to 1975. These buildings have been intensively used, building systems have outlived their useful life, and many relocatables are in need of repair. The funds that are requested for this project will be used to replace roofs, mechanical systems, and provide interior modifications and other related improvements.

PUBLIC SCHOOL CONSTRUCTION PROGRAM

FY 2005 - FY 2009 Capital Improvement Program Grant and Loans

Public School Construction Program (Statewide) FY 2005 Total **\$101,600**

This program provides financial assistance to local education agencies for the construction, renovation, and conversion of public school facilities in Maryland. Funds may also be used for systemic renovations to existing school facilities, purchase and movement of relocatable classrooms, wiring schools for technology, science facility renovations, pre-kindergarten projects and the Aging School Program. Financial assistance is based on the State/Local shared cost formula which varies from 50% - 90% based on the wealth of each local government. *(Projects included for funding through this program are listed on pages 130-131).*
