A15000.01 Disparity Grants

Program Description

Section 16-501 of the Local Government Article authorizes disparity grants to address the differences in the capacities of Baltimore City and certain counties to raise revenue from the local income tax. In general, the grants are the lesser of an amount to raise the jurisdiction's per capita income tax revenues to 75% of the state average or the fiscal year 2010 cap. The formula was modified during the 2013 legislative session to add a minimum grant amount based on the local tax effort of eligible counties and raises from 2.4% to 2.6% the local income tax rate required to be eligible to receive a grant.

C00A00.01 The Supreme Court of Maryland

Program Description

The Supreme Court of Maryland is the highest court of the State and exercises only appellate jurisdiction. The Chief Justice of the Supreme Court of Maryland is the administrative head of the Judicial Branch. The Court's appellate jurisdiction is discretionary with virtually all initial appeals as of right going to the Appellate Court of Maryland. In addition to its adjudicatory functions, the Supreme Court of Maryland admits to the bar all persons eligible to practice law in the State; disciplines, suspends and disbars lawyers subject to such action; and makes rules and regulations to govern practice, procedure, and judicial administration in all courts of the State. The State Reporter is appointed by the Supreme Court of Maryland under Section 13-201 of the Maryland Annotated Code's Courts and Judicial Proceedings Article. Its responsibility is to prepare for publication the cases decided by the Supreme Court of Maryland that are designated to be reported. These cases are codified in the Maryland Reporter and Maryland Appellate Reporter and become the official record of opinions decided by these courts. The State Reporter also posts these opinions on the Judiciary's Internet site. The Alternate Dispute Resolution program was established pursuant to Maryland Rule 8-206, and a joint Administrative Order of the Appellate Court of Maryland and the Supreme Court of Maryland. The Appellate Court of Maryland operates a prehearing conference program in most civil cases to discuss settlement, dismissal of the appeal, limitation of the issues, and other pertinent matters. Mediation is a method that the Court may use in prehearing conferences for such purposes.

Office of People's Counsel

C91H00.01 General Administration

Program Description

The Office of People's Counsel (OPC) is an independent State agency that represents the interests of Maryland's residential consumers of electricity, natural gas, telephone and private water services. OPC litigates in regulatory and court proceedings for safe, reliable, and fairly priced utility service for residential consumers of energy, telecommunications and other regulated utility services while considering the public safety, economic welfare, and environmental interests of the State and its residents, including the State's progress toward meeting its greenhouse gas emissions reductions goals. OPC also helps resolve problems with utility services and locate financial assistance for customers who have difficulty paying their bills. OPC advocates, on both State and Federal levels, for legislation that provides protection for residential ratepayers. OPC also advocates for rules and policies regarding competitive energy markets in the areas of gas, electricity and telephone services that will promote just and reasonable outcomes for consumers. Finally, OPC serves as a resource to the community by providing education, referrals and training.

The Survey Commissions program provides funds for special commissions appointed to investigate and make recommendations concerning problems affecting the administration and welfare of the State, as well as other ongoing non-departmental programs. The State Commission on Uniform State Laws (SCUSL) was created in 1896 to recommend measures to the General Assembly to promote uniform laws within the states. Maryland's Commissioners represent the State at the National Conference of Commissioners on Uniform State Laws, participate in drafting recommended uniform state legislation and promote the adoption of uniform laws within the states. They have recommended and the General Assembly has approved uniform or model legislation dealing with such matters benefiting Maryland residents as gifts to minors, estate tax apportionment, facsimile signatures of public officials and interstate family support. The Judicial Nominating Commission System was established to recommend to the Governor the names of persons for appointment to the appellate and trial courts of Maryland. The Commissions are charged with evaluating the extent to which candidates have the following qualifications for judicial office: integrity, maturity, temperament, diligence, legal knowledge, intellectual ability, professional experience, community service, as well as the importance of having a diverse judiciary. The Commissions submit to the Governor the names of those persons found to be legally and most fully professionally qualified. Their reports are publicly released concurrently with submission to the Governor. Under the State Publications Depository and Distribution Program, the State has designated sixteen libraries across Maryland and the Library of Congress in Washington DC to serve as Depository Libraries for State documents. The expenses of this program included in the Survey Commissions appropriation are primarily for updates to the Annotated Code of Maryland provided to the Depository Libraries, Judicial Nominations advertising and Uniform Law Commission (annual dues).

D15A05.20 State Commission On Criminal Sentencing Policy

Program Description

Established in 1999, the State Commission on Criminal Sentencing Policy (the Commission) was created to oversee criminal sentencing policy in Maryland. The Commission consists of 19 members, including members of the judiciary, representatives of the criminal justice system, members of the State Senate and House of Delegates, and members of the general public. The Commission assumes primary responsibility for the Maryland voluntary sentencing guidelines for Circuit Courts by distributing, collecting and compiling sentencing guidelines worksheets, and maintaining the sentencing guidelines database. The Commission conducts training and orientation for trial court judges, attorneys, probation officers and other interested parties as may be required. In addition, the Commission monitors judicial compliance with the guidelines, studies the factors driving judicial departures from the guidelines and adopts changes to the sentencing guidelines, if necessary. In addition to overseeing the application of the sentencing guidelines, the Commission is expected to integrate corrections options programs into the sentencing guidelines system and to establish guidelines to identify appropriate candidates for participation in corrections options programs. The Commission uses a correctional population simulation model to provide estimates of the impact of proposed legislation or policy changes on State and local correctional resources.

D21A01.03 State Aid for Police Protection (SAPP) - Administrative Headquarters

Program Description

The State Aid for Police Protection Fund is a formula-driven funding program used to supplement resources for police protection in our local communities. State funds provide additional revenue to support the operational costs of local and county police agencies. Funds are distributed based on a formula derived through a subdivision's population, number of police officers in the agency, and the total jurisdictional taxable income. Annual fund distributions are calculated according to the previous year's operations costs.

Maryland Commission On Civil Rights

D27L00.01 General Administration

Program Description

The Commission resolves allegations of discrimination based on race, color, creed, ancestry, religion, sex, age, sexual orientation, national origin, marital status, familial status, genetic information and physical or mental disability. Resolution occurs via conciliation, mediation, investigation and litigation in the areas of employment, housing and public accommodations. In addition, the Commission enforces the State of Maryland's Commercial Non-Discrimination Policy, which prohibits the State from contracting with business entities, both public and private, that discriminate in the solicitation, selection, hiring, or treatment of vendors, suppliers, subcontractors, or commercial customers. The Commission also, through its educational and outreach efforts, improves community relations and fosters a better understanding of the law, thus reducing the potential number of complaints generated. Efforts in fair employment practices and fair housing are supplemented by work sharing arrangements and contracts with the U.S. Equal Employment Opportunity Commission and the U.S. Department of Housing and Urban Development. The Commission engages in cooperative efforts with Federal, State, local and private agencies having comparable interests and/or legal authority.

Program Description

The Maryland Wholesale Produce Market opened in 1976 and operates as an integral component of the Maryland Food Center Complex. The Produce Market consists of two buildings with approximately 330,000 square feet of space. The 101 individual units in the buildings continue to be leased by privately owned firms engaged in the wholesale distribution of fresh produce. Many of the companies are second and third generations of the same family-owned business. The produce dealers own and operate highly specialized companies and lease their offices, storage and dock facilities from the Maryland Food Center Authority (MFCA). Receiving/shipping terminals, handling, storage, refrigeration, and processing functions for produce are centralized in a single location. These units have had to broaden their business; several companies include value added services that necessitated changes in their facility design.

Maryland Food Center Authority

D30N00.47 Maryland Market Center

Program Description

The Maryland Food Center Authority commenced a comprehensive redevelopment project to divide the Maryland Wholesale Seafood Market into two distinct sections – the seafood section and the non-seafood section. The consolidation of existing seafood companies to one section of the market allowed food companies other than seafood to occupy the non-seafood section of the market. The building was rebranded the Maryland Market Center to better describe the tenant mix following the consolidation of the existing seafood companies. The Maryland Market Center operates in a similar method to the Maryland Wholesale Produce Market, consolidating all of the specialized storage, refrigeration, shipping/receiving, and processing functions into one main facility expressly designed for the food industry. The 36 individual units in the building are intended to be leased by privately owned firms engaged in the wholesale distribution of fresh, frozen, and dry food products.

Prescription Drug Affordability Board

D77A01.01 Prescription Drug Affordability Board

Program Description

The Maryland Prescription Drug Affordability Board (PDAB) was established as an independent unit of State government in July, 2019 with the enactment of House Bill 768. The PDAB has a five-member Board appointed by the General Assembly and the Governor. The Board members possess expertise in the fields of either health care economics or clinical medicine. The Board is tasked with protecting Marylanders and the Maryland health care system from the high costs of prescription drug products. The Board must make specified determinations, collect data, and identify specified prescription drug products that may cause affordability issues; may conduct a cost review of each identified drug product; and, if warranted, must draft a plan of action that includes the criteria to set upper payment limits for prescription drug products. During FY21 and FY22 the Maryland Health Care Commission provided funding for initial activities of the Board. FY23 represents the first independent budget for PDAB. The Board is supported entirely through a Special Fund, based on fee assessments to health insurance carriers, pharmacy benefit managers, prescription drug manufacturers, and wholesale distributors.

Maryland Health Benefit Exchange

D78Y01.01 Maryland Health Benefit Exchange

Program Description

The Maryland Health Benefit Exchange (MHBE) was established as a public corporation and independent unit of State government in 2011. The MHBE has a nine-member Board of Trustees that includes the Secretary of the Maryland Department of Health (MDH), the Maryland Insurance Commissioner, the Executive Director of the Maryland Health Care Commission, three members appointed by the Governor representing employers and individual consumer interests, and three other board members appointed by the Governor. Working with MDH, the Department of Human Services (DHS), and the Maryland Insurance Administration (MIA), the MHBE has created a marketplace called Maryland Health Connection. Through Maryland Health Connection, Maryland residents can shop for health insurance plans, compare rates, and determine their eligibility for tax credits and public assistance programs such as Medicaid and the Maryland Children's Health Insurance Program. Once an individual, family, or small business selects one of the many Qualified Health Plans or available programs, they enroll in that program directly through Maryland Health Connection. This "no wrong door" approach ensures access to affordable health insurance, continuity of care, and seamless transitions for individuals and small businesses.

E20B01.01 Treasury Management - Treasury Management

Program Description

The Treasury Management Program includes the administrative and operating functions for two principal operating divisions: Treasury Management and Information Technology. The Treasury Management Division oversees all areas related to banking services and investment functions. With respect to banking services, the Division reconciles the State's principal depository and disbursement accounts as well as the income tax and payroll disbursement accounts. The Division resolves errors and claims associated with these accounts. Proper reconciliation assures that all receipt and disbursement transactions are authorized and processed appropriately. The Division also ensures adequate collateralization of State funds on deposit and monitors agencies' working fund accounts to ensure that interest remitted to the State is credited to the General Fund. The Division serves as the banking and financial transaction resource for all banking requirements of State agencies. With respect to investment functions, the Division focuses on the short-term investment of State funds, and oversees securities lending operations. The Division determines the disbursement requirements to be funded on a daily basis, and monitors balance levels at the State's main depository and disbursement banks. The Division ensures that portfolio tracking software and cash flow management techniques are utilized to maintain adequate control of all funds. The Information Technology Division provides the data processing and technology infrastructure needed to operate the State Treasurer's Office. This includes the operation of all internal network and mainframe applications, as well as links to external systems. The Division also provides check printing and electronic payment services for all vendor payments, State Retirement Agency payments to retirees, printing of child support checks, and the processing of all payroll direct deposits.

J00I00.03 Airport Facilities and Capital Equipment - Maryland Aviation Administration

Program Description

This program provides funds to develop and maintain the facilities at Baltimore/Washington International Thurgood Marshall Airport and Martin State Airport. The capital program for BWI Marshall will improve airport facilities to meet the commercial and general aviation needs for both passengers and cargo activities. Development of Martin State Airport requires facilities improvements to support the Maryland Air National Guard, Aviation Division of the Maryland State Police, and general aviation. The program also includes development grants for public use airports located throughout the State. Eligible projects may be financed with State grants which are matched with Federal and local funds. Certain projects ineligible for Federal funds are financed entirely by State and local funding or a combination of State grants and loans. The Maryland Aviation Administration is authorized by the Federal Aviation Administration to collect Passenger Facility Charges (PFC) for capital projects in accordance with the Federal Aviation Safety and Capacity Expansion Act of 1990. Projects funded partially or entirely with PFC revenue must preserve or enhance safety, security or capacity of the national air transportation system, reduce noise or mitigate noise impact resulting from an airport, or furnish opportunities for enhanced competition among carriers.

Program Description

The Food Quality Assurance Program is composed of four subprograms that perform a variety of certification, inspection and audit activities related to quality, wholesomeness, and production practices of agricultural food commodities. Grading Services employees certify agricultural commodities such as eggs, poultry, meat, grain, fruits and vegetables for grade, size, weight, sanitation, good agricultural practices, food security practices and/or compliance with buyer specifications. Producers and packers of agricultural commodities request certification to meet customer specifications or export requirements. Egg Inspection employees enforce the quality, size, labeling, record keeping, registration and public health requirements established by the Maryland Egg Law to provide consumer protection and fair trading practices for the industry. Employees of this section also conduct audits to verify compliance with Maryland Egg Quality Assurance Program requirements designed to reduce the risk of microbial contamination of eggs. The Grain Laws program licenses facilities obtaining grain from producers and inspects their records for compliance with financial and insurance requirements. The costs incurred in furnishing these programs are paid for by the regulated industry. The Organic Program inspects farms and facilities to certify compliance with standards established by the organically produced commodities regulations and the National Organic Program.

Program Description

The Marketing Program assists Maryland farmers and other agricultural entrepreneurs to develop markets for their products. The Program provides market research, identifies marketing opportunities and provides a centralized source of business development information for farmers, small agribusinesses and large agriculture-related businesses. The Marketing Program also promotes Federal crop insurance as a risk management tool and administers the United States Department of Agriculture (USDA) Certified Agricultural Mediation Program for Maryland to provide citizens with an effective, low-cost, rapid means of resolving disputes related to agricultural production. Marketing also serves as a platform for Maryland's companies to raise local and global concerns relating to trade and agricultural profitability. The Spay/Neuter program is intended to provide financial resources and information to low income dog and cat owners to help defray the cost to spay and neuter pets. The program manages a voucher and grant program to achieve the objective of decreasing the population of breeding cats and dogs residing in low income households.

L00A15.06 Nutrient Management - Office of Resource Conservation

Program Description

This program develops nutrient management plans and administers the Turf Grass Nutrient Management program. It also trains, certifies, and licenses nutrient management consultants. Nutrient management law and regulations are focused on the development of nutrient management plans by certified consultants and the management of nutrient sources and implementation of plans by farmers. The program is responsible for implementation of nutrient management and enforcement of the law. It also provides support to the University of Maryland Cooperative Extension (MCE) to administer the development of plans by the consultants in the public sector and educational programs. Cost-share incentives are also provided for development of plans by the private sector. Education and outreach are key elements in the program's strategy plan and its efficient implementation. The program provides educational and certification programs for farmers and consultants, conducts site visits and inspects the development of plans by consultants and the implementation of plans and application of nutrients by operators; and tracks, evaluates and prepares annual progress reports on program implementation to the Governor and General Assembly.

L00A15.07 Watershed Implementation - Office of Resource Conservation

Program Description

The Watershed Implementation Program provides direction and leadership in developing and evaluating the agricultural sector's strategy in achieving the implementation program as required by the Chesapeake Bay Agreement. The program also provides oversight and management of Maryland's Certainty and Nutrient Trading programs. The Maryland Certainty Program offers certainty that Maryland's agricultural operations are actually reducing pollution on their farms and also gives those operations certainty once they meet all water quality standards. The Maryland Nutrient Management Trading Program provides a public marketplace for buying and selling of nutrient (nitrogen and phosphorous) credits. The purpose of the program ranges from being able to offset new or increased discharges to establishing incentives for reductions from all sources within a watershed and achieving greater environmental benefits than through existing regulatory programs. In addition, the Watershed Implementation Program reviews and evaluates emerging technologies for potential environmental benefits through research and/or special grant funding projects in collaboration with various research and academic institutions.

Program Description

Each political subdivision in Maryland operates a local health department with funding provided by State grants and human service contracts, local funds for required match, and 100% local funds, and fees generated by the program. The local health departments are responsible for operating these programs within available funding. This program reflects disbursements made by the Comptroller for local health departments and State positions utilized by the local health departments. Local health departments also disburse funds through the local subdivisions, and employ staff in local positions. Those local expenditures and positions are not included in this program.

M00Q01.01 Deputy Secretary for Health Care Financing - Medical Care Programs Administration

Program Description

The Medical Care Programs Administration serves children, pregnant women, the elderly, and the disabled, as well as income eligible adults. In comparison to the general public, the population eligible for Medical Care Programs is characterized by poorer health and lower income. The health and economic status of the eligible population creates a greater need for services while presenting greater challenges to providing services. In addition to serving the most vulnerable populations, Medical Care Programs Administration benefits all Marylanders by sustaining the health care system in the State. The Office of the Deputy Secretary for Health Care Financing administers the Maryland Medicaid Program, and the Maryland Children's Health Program. In addition, the Office of Planning is housed in the Office of the Deputy Secretary. The Office of Planning assists the Medicaid program managers in the development and implementation of priority projects and provides information to program managers and policy makers on issues related to health care services, financing and regulation. It provides for the analysis and evaluation of existing programs and coordinates state and federal legislative activities for the Medicaid programs.

Program Description

This program develops and maintains a federally certified Medicaid Management Information System (MMIS) to promptly and efficiently pay claims submitted by enrolled providers for health care services. M00Q01.03 Medical Care Provider Reimbursements - Medical Care Programs Administration

Program Description

The statewide Maryland Medical Assistance Program provides a broad range of medical services to low income persons and to those with catastrophic illness who are unable to pay for care. There are two main classifications of needy persons: (1) the categorically needy and (2) the medically needy. The categorically needy classification includes persons who receive Temporary Cash Assistance (TCA) from the Department of Human Services as well as those individuals receiving Supplemental Security Income (SSI) grants from the federal Social Security Administration. Categorically needy persons are enrolled automatically under the Medical Assistance Program. Several other populations that do not receive public assistance grants are included in the categorically needy classification. These include children, pregnant women, elderly and disabled Medicare beneficiaries with income above the standard Medicaid limit but below certain percentages of the poverty level. As of January 1, 2014, this program also covers adults with income at or below 138 percent of the federal poverty level. The medically needy are those who cannot meet the cost of needed medical care but who are self-supporting in other respects. Medically needy individuals must apply to the local departments of social services for eligibility determination under established criteria for income and assets in relation to need and size of family. The program covers physician services in office and in home, hospice, hospital inpatient, hospital outpatient, pharmacy services, personal care services, day care services and many others. Each person enrolled under the program may select the provider of his/her choice. Payments are made on the basis of allowable fees, or usual and customary charges that are declared reasonable for specific services rendered, or on the basis of prepaid monthly capitation payment. This program provides the funding which reimburses providers under the Medical Care Programs.

Services include inpatient hospital and residential treatment facility stays, outpatient psychiatric rehabilitation, counseling and targeted case management. Starting with fiscal year 2015, the Medical Care Programs Administration contains the budget for the Public Mental Health Services Medicaid Services previously being reported in M00L01.03. The information is now reported under M00Q01.10, and titled "Medicaid Behavioral Health Provider Reimbursements." N00A01.02 Citizens Review Board for Children - Office of the Secretary

Program Description

Under the Family Law Article, citizens appointed by the Governor review the cases of children in out-of-home care, make findings regarding permanency, safety, and child well-being; and advocate for children as appropriate. These findings are sent to the local departments of social services and the juvenile courts. The Citizens Review Board for Children (CRBC) is required to examine the policies, procedures, and practices of State and local agencies and to review specific cases in order to evaluate their effectiveness in discharging their child protection responsibilities. Tabulated results of the case reviews must be provided to local departments for consideration with the self-assessment process. The State Board, which is the governing body of the CRBC, reports annually to the General Assembly and the Secretary on the status of children in Maryland's child welfare system.

N00G00.01 Foster Care Maintenance Payments - Local Department Operations

Program Description

This program enables Maryland children who cannot remain in the care of their parents, legal guardians, or caretakers to receive care in alternate settings. The local departments provide services to the families of children in Foster Care to facilitate stabilization and reintegration of the child back into the family when it is in the best interest of the child. The program includes payments to foster family homes, group homes, and residential facilities for neglected or dependent children, and financial subsidies paid on behalf of special needs children when adoption without a subsidy has not proven feasible.

P00D01.03 Railroad Safety and Health - Division of Labor and Industry

Program Description

This program promotes safety and health in all areas of railroad operations and supplements the national inspection program established under the Federal Railroad Administration. The State program monitors the safety practices of each railroad company in the State by conducting inspections of railroad track, operating practices, and motive power and equipment. In addition to working to ensure the safety of mainline operations, State inspectors regularly work with private industry to ensure safety in the yard operation of locomotives and railroad freight cars. Tourist and museum railroad operators who carry passengers but are not covered by Federal railroad regulations are also a focus for the unit. Staff enforces Maryland-specific requirements for track clearances, yard and walkway safety, and promotes safety at highway-railroad grade crossings.

P00D01.08 Occupational Safety and Health Administration - Division of Labor and Industry

Program Description

The Maryland Occupational Safety and Health (MOSH) program is an approved State plan program that meets Federal requirements under the Williams-Steiger Occupational Safety and Health Act of 1970 (OSHA). MOSH acts in place of OSHA in Maryland, eliminating duplication of requirements and programs for Maryland employers and employees. MOSH is charged with preserving human resources and ensuring that all employers meet the responsibility of providing each working man and woman in the State with working conditions that are safe and healthful. The program also administers the Access to Information about Hazardous and Toxic Substances Law. The MOSH program consists of four major units: compliance, consultation, training and education, and statistics. The compliance unit is the enforcement arm of the program. The MOSH compliance unit inspects places of work and issues citations and penalties for violations of established occupational standards. The compliance unit responds to fatalities, accidents, and employee complaints about safety and health. The unit also responds to referrals from OSHA, other State and local government agencies, and other safety and health professionals. The consultation unit provides assistance to Maryland employers who voluntarily comply with applicable requirements, without citations and penalties. The MOSH consultation program provides on-site surveys and technical assistance to employers. The training and education unit provides statewide, free educational and training programs for employers and employees, as well as more than 100,000 print publications each year to assist them to achieve voluntary compliance. The statistical unit works with the U.S. Department of Labor, Bureau of Labor Statistics to compile the Maryland portion of national injury and illness statistics, special fatality reporting programs, and other special statistical surveys.

The Division of Occupational and Professional Licensing administers regulatory programs that govern the practice of 25 occupations and professions in Maryland. The activities of the Division are primarily conducted through licensing boards and commissions, established by statute, subject to the authority of the Secretary of Labor, Licensing and Regulation. The boards and commissions consist of consumers and industry representatives who are appointed by the Governor, and are empowered to regulate the occupations and professions by qualifying and testing individuals for licensing, issuing and renewing licenses, establishing ethical and other standards of practice for the occupation or profession, and enforcing compliance of licensees with practice standards and Maryland law through a disciplinary process that could result in revocation or suspension of a license, a fine or reprimand.
